

Summer Camp 2020 Operations

Pre-Camp Health Screening

Self-monitor for 14 days prior to camp with document provided by Amherst Rec.

Document must be turned in at the beginning of the camp week in order to attend camp.

- Self-screening for the presence of symptoms (fever of 100.4 °F or greater, cough, shortness of breath, diarrhea, fatigue, headache, muscle aches, nausea, loss of taste or smell, sore throat, vomiting, etc.)
- Determining if, within the past two weeks, the individual has traveled nationally or internationally.
- Determining if the individual has been in close contact with a person who has been diagnosed with, tested for, or quarantined as a result of COVID-19

Pre-existing Medical Conditions

We do not administer medication at camp. If there is hesitation about the camper, or a member of the household, parents are strongly recommended to consider not having child attend camp this season

Drop Off/Pick Up Operations

Drop Off (9am-9:30am)

1. Parents and child wait in the car while in drop off line
2. Drive up to the circle
3. 1 staff member takes and records temperature while child remains in the car. Staff member records any day-of symptoms of camper and members of the household
4. *Assuming camper is clear to attend camp*, Camper exits car with all belongings and is directed to the door of their group
5. Staff member wearing PPP during Drop Off
6. Notes for parents
 - High-risk individuals should not participate in the drop-off/ pick up process
 - Limit number of extra patrons in the car as much as possible

Pick Up (3:30pm-4:00pm)

1. Parent will enter circle same as drop off
2. Staffers will call kids out of their group to head to their car
3. Staff member wearing PPE

Parent role in Drop off/Pick Up

- Abide by the drop off and pick up schedule
- Be diligent with monitoring signs and symptoms at home. Report accurately to camp staff
- Wash hands before leaving the house
- Minimize the amount of time used for saying goodbye to campers
- Say goodbye close to or inside your vehicle.
- Designate one parent/guardian to pick up and drop off campers every day.
- Individuals who are at higher-risk should not drop off or pickup campers.
- Allow for campers to wash hands with soap and water for 20 seconds or use alcohol-based hand sanitizer containing at least 60% alcohol upon return home.
- Teach and practice good respiratory hygiene/cough etiquette within the household.
- Call with questions instead of asking during drop off/pick up

Daily Operations

Staff Safety PPE

- PPE will be made available to staff
- Everyday staff will be given the same signs and symptoms assessment as campers
- Staff should wear face coverings when within 6 ft of campers
- Campers will not be required to wear face coverings: The American Academy of Pediatrics does not recommend children to wear face coverings

Groups & Activities

- Campers and counselors will be organized by week into “groups” that eat, wash, and do all activities within the group
- Each group will have their own restroom, activity equipment, and indoor space
- Groups will not interact at camp
- Campers will participate in games, arts and crafts and outdoor activities. We will do our best to add social distancing measures to each activity.

Cleaning Operations

- Daily cleaning will be conducted with a bleach solution
 - Before camp, during camp, and end of the day procedures in place for all facilities and equipment
- Hand sanitizer will be available to campers and staff
- Staff will oversee proper and frequent handwashing of campers

Suspected Illness During Camp

- If camper or staff is suspected to have COVID-19 based on signs & symptoms assessment, individual will be isolated, and parents/guardians will be contacted for immediate pick up

Confirmed Case Operation

- If there is a confirmed COVID-19 case from camper or staff member, the facility will close for 5 days
